Global strength, local presence.

HAGS was founded in Sweden in 1948 with a mission to make the world better by providing outdoor play equipment for children - a mission we still live up to through the large range of products we design and manufacture. Our play and recreation solutions are made for people of all ages, genders and nationalities.

We are a global play company and a committed partner with representation in all parts of the world. Local HAGS representatives work together with our customers to create outstanding outdoor areas. Our goal is to be the play company of choice by providing the highest level of quality and value when it comes to products, service and pricing.

HAGS is an important part of PlayPower Inc, a leader in recreation equipment manufacturing.

Inspiring all generations.

HAGS philosophy is all about inspiring all ages. We believe that inspiration is the greatest benefit for anyone who comes in contact with our play equipment. That is why we challenge ourselves to be seen as a source of new ideas in everything we do - through all parts of our organisation and through our products.

We strive to:

- *Inspire product developers to be in the frontline for innovative play.*
- *Inspire architects to create exciting playgrounds and meeting points.*
- *Inspire people who work with children to value the benefits of outdoor play.*
- *Inspire children and teenagers to use their full potential.*

A sustainable mindset.

As an international company with a long history and the vision to make as little impact as possible on the natural environments, for us sustainability is a mindset. We take environmental responsibility seriously. We are also aware that the quality of our services and products form the basis for long-lasting partnerships with our customers.

HAGS is also known for safety awareness, which has been part of our philosophy since the company first started.

ANEBY, SWEDEN

Made in Sweden

- enjoyed all over the world.

The HAGS head office, with development and manufacturing facilities, is located in Aneby, Sweden. We have our own subsidiaries in the UK, Germany, Spain and Denmark as well as a global network of authorised distributors. We know play in all languages!

UniMini

Our modular system for smaller children comes in a brand new colour scheme for 2015, allowing the units to blend into the surroundings in a natural way.

Agito

An innovative play system with flexible play functions that encourages movement and games – combining climbing walls, slides, balance bars and climbing nets.

All Agito units are available in two colour options – blue or grey.

Agito Aura, colored LED lights that light up at dusk, is available for Corro, Crystal, Igloo, Q and Vox.

CRYSTAL AURA

The Agito Aura is equipped with coloured LED lights that light up at dusk and create an ambiance during the dark hours, stretching the number of hours that the equipment can be used. This is especially valuable in countries where the length of daylight changes considerably with the seasons. Or where it is too hot to play in the daytime.

The centre of attention

The shimmering Aura lights create an exciting focal point in any play environment.

The lights are placed on top of each post and in the rotation moulded play functions, like the tubular slide. They shift in four colours in an inviting, vibrant play of light.

Aura is available for Igloo, Corro, Q, Vox and Crystal.

Technical information

Waterproof plastic covered LED lights in 4 different colours. Powered by low voltage electricity (24V). The power source should be placed at a maximum of 5 meters from the Agito Aura.

AGITO AURA

Nexus 7+

Delivery time approximately 8 weeks.

For Nexus CC (cast in place) rubber tiles are required. For loose-fill select Nexus BM (bark anchoring) options.

Rockers & Springs

The new range of rocking play equipment ideal for children up to 4 years of age. We offer several elegantly designed models in warm colours to appeal to the vivid imagination of younger children.

Our popular range of springers and rockers has been expanded with exciting and fresh spring models, and a cleaner design.

New!

Rockers -4 years

Rockers for children up to 4 years of age. Adapted for the smallest children's movement patterns.

Visit www.hags.com for more details.

New! Our new bicycle garage can be ordered in various designs and colour combinations. The metal parts are supplied as standard hot-dip galvanized. The Stella screens with wooden slats are made of knot-free pine and treated with Tar black linseed oil. Capella with hot-dip galvanized squared pipe and Nova with expanded metal.

In addition to these options, the metal can also be painted in any RAL or NCS colours. Although the slats can be lacquered or linseed oiled with other colour pigments, such as silver grey or bark brown. As an option, the roof can be coated with the plant sedum. The flexible modular system enables an infinite number of possible combinations and a number of bicycle stands.
